

PEDRO FERNÁNDEZ

Frontend Engineer | UX/UI Designer | Web Architecture

prfmaestre@gmail.com | [linkedin.com/in/pedro-fernandez-develop-frontend](https://www.linkedin.com/in/pedro-fernandez-develop-frontend)

 Portfolio: Prutopia Profile

PROFESSIONAL PROFILE

Frontend Engineer and UX/UI Designer with **8+ years of experience** in JavaScript and modern web ecosystem. Specialized in **React (5+ years)**, **TypeScript (5+ years)**, **Next.js (3+ years)**, and **React Native with Expo (2+ years)**. I combine solid experience in frontend architecture with UX/UI design, developing scalable web and mobile applications. I have contributed to high-traffic products such as **Mercado Libre**, improving user experience, code quality, and collaboration in multidisciplinary teams.

PROFESSIONAL EXPERIENCE

Frontend Engineer

Vanguard Vision AI | Jun 2025 - Present

Development of fullstack web applications using **Next.js** with integrated backend (API Routes / App Router), creating solutions within the same ecosystem.

- Implementation of complex interfaces in **React** with optimized state management and REST API consumption
- Development of mobile applications with **React Native and Expo**, reusing business logic between web and mobile
- Writing unit and integration tests with **Jest**, ensuring coverage and stability

Stack: Next.js (frontend & backend), React, React Native (Expo), TypeScript, Jest, REST APIs, Modular Architecture

Frontend Developer

Mercado Libre | May 2024 - May 2025

Development of frontend features with **TypeScript** and reusable components on a high-traffic platform.

- Implementation of **Redux** for global state management in critical business flows
- Creation of tests with **Jest** to prevent regressions and ensure code stability
- Collaboration with multidisciplinary teams following agile methodologies

Stack: TypeScript, Redux.js, Jest, React, OOP, UI Design

Frontend Engineer · UX/UI

Xcala | Oct 2022 - Jun 2025

Design and development of responsive interfaces with **React and TypeScript**, following MVC patterns.

- Implementation of dashboards and visualizations with **Chart.js** for reporting and data analysis
- Collaboration with design and product teams to maintain visual and interaction consistency

Stack: React Hooks, Webpack, TypeScript, CSS, Git, Chart.js, MVC, UI Design

Frontend Developer

Development of web interfaces with **React Hooks and Webpack**, prioritizing performance.

- Construction of visual components and reports with **Chart.js** for energy projects
- Layout and maintenance of sites with CSS and integration with **WordPress/Elementor**

Stack: Node.js, React Hooks, Webpack, CSS, Git, Chart.js, TypeScript, Elementor

TECHNICAL SKILLS

Frontend & Mobile Development:

JavaScript (8+ years) • TypeScript (5+ years) • React (5+ years) • Next.js (3+ years) • React Native with Expo (2+ years) • React Hook Form • Zustand • Redux • React Query • Jest • Vite • Webpack

UI/UX & Styling:

Figma • Adobe XD • Design Systems • Atomic Design • HTML/CSS • SASS/LESS • Tailwind CSS • Material UI • Astro

Backend & CMS:

Node.js • NestJS • Express • PHP • Laravel • WordPress • Elementor • Divi • JetEngine

Graphic Design & Motion:

Photoshop • Illustrator • InDesign • Affinity Suite • After Effects • DaVinci Resolve • Cinema 4D

Architecture & Methodologies:

Modular Frontend Architecture • OOP • Design Patterns • MVC • Atomic Design • Git/GitHub • Documentation • Agile Methodologies

EDUCATION

Bachelor's Degree in Graphic Design

Universidad Católica Cecilio Acosta
(2002-2008)

LANGUAGES

Spanish: Native

English: Basic
